ONLY RAIN MAY GO DOWN THE STORM DRAIN

Clean Valley Council

1. Properly dispose of all solid and liquid waste. NEVER DUMP into storm drain or on the ground.
2. Maintain grease traps or other waste oil containers and use a routine disposal service.
3. Sweep and collect debris, instead of pressure washing.
4. Dispose of all wash water (and ONLY wash water) down a sink, toilet, or floor drain.
5. Keep dumpsters and waste containers covered and ensure they do not leak. Do not rinse out dumpsters.

All Storm Drains Flow to the Roanoke River

THANK YOU FOR KEEPING OUR WATERWAYS CLEAN!

By following these five easy steps, your restaurant can help the Roanoke Valley keep the Roanoke River and its streams clean, ensuring a healthier, safer environment for everyone. To learn more, contact the Clean Valley Council at 540-345-5523 or visit *www.cleanvalley.org*. You can also contact your locality for more information.

Together, we can make a difference.
