Additionally, the BZA has the authority to grant special exceptions from the Vinton Zoning Ordinance.

Meeting schedule - The Board of Zoning Appeals meets on an as-needed basis. When an application is received, a meeting is scheduled with the board members as soon possible.

COMPREHENSIVE ECONOMIC DEVELOPMENT STRATEGY (CEDS)

Comprehensive Economic Development Strategy (CEDS) - is designed to bring together the public and private sectors in the creation of an economic roadmap to diversify and strengthen regional economies. CEDS documents analyze regional economies and serve as guides for establishing regional goals and objectives, developing and implementing regional action plans, and identifying investment priorities and funding sources.

A CEDS integrates a region's human and physical capital planning in the service of economic development. Integrated economic development planning provides the flexibility to adapt to global economic conditions and fully utilize the region's unique advantages to maximize economic opportunity for its residents. A CEDS is the result of a continuing economic development planning process developed with broad-based and diverse public and private sector participation. A CEDS must set forth goals and objectives necessary to solve economic development problems of the region and must clearly define metrics of success. Finally, a CEDS provides a useful benchmark by which a regional economy can evaluate opportunities with other regions in the national economy.

A CEDS is a precondition for funding under most of the Economic Development Administration's (EDA) grant funding programs. CEDS documents provide regions with an additional funding avenue for public infrastructure improvements that support regional economic development and alleviate economic development problems in a region.

This project is funded in part by the US Economic Development Administration, an agency of the US Department of Commerce.
